This conference is designed to meet the needs of parents, educators, health care providers, advocates, and attorneys who represent children with disabilities regarding special education. By the end of the conference, you will be informed and motivated to advocate for children with disabilities of all kinds. The Wrights will give you information about the latest revision to IDEA and No Child Left Behind. You will learn practical ideas and strategies that you can apply immediately to your own situation. You will feel confident that you can truly advocate for the child with disabilities. The information gives you the ability to work together so schools and families can partner in understanding the law and how it can be used to secure a free and appropriate public education for children with disabilities.
